# Accessori per pulizia armi

MANUFACTURER OF ITALIAN QUALITY GUN CLEANING ACCESSORIES SINCE 1979

 NATA NEL 1979, PER UNA BRILLANTE INTUIZIONE DEI SUOI TRE FONDATORI, LA STIL CRIN VANTA OGGI OLTRE TRENT'ANNI DI ESPERIENZA NELLA IDEAZIONE E PRODUZIONE DI ACCESSORI PER LA PULIZIA DELLE ARMI DA CACCIA, SPORTIVE ED ORA ANCHE ARMI IN USO A DIPARTIMENTI MILITARI.

Caratterizzata da una struttura organizzativa di tipo familiare si è sempre distinta per il costante impegno del suo staff al fine di garantire ottima qualità dei prodotti, servizio e assistenza tempestivi.

La continua innovazione tecnologica ha permesso negli anni di aumentare esponenzialmente la quantità produttiva giornaliera senza, però, diminuire gli standard qualitativi raggiunti grazie alla costante presenza degli operatori che attentamente tengono monitorato l'avanzamento del lavoro svolto dai macchinari che in buona parte sono completamente automatici. Lo stabilimento è situato a Pavone del Mella, in provincia di Brescia, nella pianura padana lombarda, a soli 40 km dalla Valle Trompia: fulcro produttivo delle armi rinomate ed apprezzate in tutto il mondo. Questa localizzazione strategica ha dato vita alle maggiori collaborazioni che la stil crin ha intrapreso con numerosi ed importanti armaioli, grazie ai quali è stato possibile migliorare passo dopo passo i prodotti per mezzo di test mirati su armi di diverso calibro e struttura meccanica.

Ogni articolo che costituisce la vasta gamma offerta dalla stil crin è per il 95% prodotto all'interno della fabbrica, mentre il restante 5% che riguarda il packaging e l'imballaggio è stato attentamente selezionato da fornitori abituali, i cui materiali sono al 100% di origine comunitaria. Base della filosofia aziendale è, infatti, il made in italy!

La stil crin produce e commercializza i seguenti accessori sia sottoforma di linea standard che interamente personalizzata in accordo con i clienti: scovoli – bacchette – vari completi dal più economico a quello stile lusso – valigie per armi – bersagli per tiro ad aria compressa – lubrificanti – salva percussori – mirini – fionde – lucchetti per chiusura armi. Lo staff è in grado di produrre articoli su disegno e garantisce tutta l'assistenza per l'ideazione e personalizzazione grafica di una linea completa sino alla spedizione e consegna. Mantenere pulita e ben conservata la propria arma è veramente importante: non si ha solo una maggiore resa durante l'utilizzo, ma si possono evitare innumerevoli disagi dovuti ad inceppamenti e in alcuni casi pericolose combustioni inaspettate di residui chimici che rimangono incrostatati all'interno della canna se non rimossi in breve tempo.

# Stil crin

**BORN IN 1979, FOR A BRILLIANT INTUITION OF ITS THREE FOUNDERS, STIL CRIN IS NOWADAYS PROUD OF MORE THAN 30 YEARS EXPERIENCE IN IDEATING AND MANUFACTURING OF CLEANING ACCESSORIES FOR HUNTING, SPORTING AND MILITARY GUNS.**

Especially for its family structured organization the Company has always been emerging thanks to the continuous staff's effort for guaranteeing the high quality products, fast service and assistance.

Always updated technological innovation has permitted during the years to increase more and more the day production quantities without quality levels that our operators keep under control during the work done by automatic and semiautomatic machineries. Stil Crin building is located in Pavone del Mella, in the province of Brescia, the middle of the Padana Plan in Lombardy. Only 40 km far from Valle Trompia: world center of the guns manufacturing. This strategic location helped us to cooperate with the major gunsmiths, well known and appreciated all around the world. Thanks to this we could getting precious information in order to make our accessories better and better testing them directly on several kind of weapons.

**Every article included in our large range of products is made 95% inside our factory, the rest 5% related to packaging materials is completely coming from Italian usual suppliers (Made in Italy – EU). Our policy pays attention to the suppliers selection and goods origin that must be strictly from Italy – Europe.**

Stil Crin manufacturing and selling is not only under its own brand, but also under specific Customers brands and lines: brushes – rods – various complete kits (from economical to deluxe) – gun cases – target holders for air-guns shooting – lubricants – snap caps – sights – slingshots – gun locks. The staff is able to manufacture articles on drawing and guarantee the assistance starting from the graphic customizing to the transport planning of your shipment. It is very important to keep well cleaned and conserved the proper gun: it's not only an advantage for better results while shooting, but also you have more safety avoiding unpleasant problems caused by chemical reactions among the ammunition residuals if not removed.

**ОБРАЗОВАННАЯ В 1979 ГОДУ, БЛАГОДАря ВЕЛИКОЛЕПНОЙ ИНТУИЦИИ ТРЕХ ОСНОВАТЕЛЕЙ, В НАСТОЯЩЕЕ ВРЕМЯ КОМПАНИЯ STIL CRIN ГОРДИТСЯ БОЛЕЕ ЧЕМ 30-ТИ ЛЕТНИМ ОПЫТОМ В ОБЛАСТИ РАЗРАБОТКИ И ПРОИЗВОДСТВА ЧИСТЯЩИХ АКСЕССУАРОВ ДЛЯ ОХОТНИЧЬЕГО, СПОРТИВНОГО И ВОЕННОГО ОРУЖИЯ.**

Для этого семья структурировала организацию компании, которая всегда развивалась, благодаря непрерывным усилиям персонала для гарантирования высокого качества продукции, оперативного сервиса.

Постоянное обновление технологического процесса позволяет в течение многих лет больше и больше увеличивать производительность труда без потери качества, которое находится под автоматическим и полуавтоматическим контролем в процессе производства.

Производство Stil Crin базируется в Pavone del Mella, в провинции Брешия, в центральной части Padana Plan в Lombardy. Всего в 40 км от Valle Trompia: всемирного центра по производству оружия. Это стратегическое расположение позволяет нам сотрудничать с оружейными мастерами, хорошо известными и имеющими высокий авторитет по всему миру. Благодаря этому мы можем получать важную информацию, чтобы улучшать нашу продукцию и лучше тестировать ее непосредственно на нескольких видах оружия.

**Каждый артикль из нашей огромной линейки продуктов произведен в стенах нашего производства на 95%, остальные 5 % приходятся на упаковочные материалы, целиком поставляемые от поставщиков Италии(Сделано в Италии – в Евро союзе). Наша политика основана на отборе поставщиков и товаров, произведенных строго на территории Италии - Европе.**

Stil Crin производит и продает товары не только под собственной маркой но и под специфическими марками и линейками товаров покупателей: ершики – шомпола-наборы различной комплектации (от класса эконом до de luxe)- ящики для оружия – держатели мишеней для пневматических ружей – смазки-насадки-рогатки-оружейные замки. Возможно производство продукции по вашим эскизам с профессиональным консультированием от стадии разработки до стадии транспортировки вашего заказа.

Очень важно содержать оружие хорошо очищенным: это необходимо не только для хороших результатов в стрельбе, но и позволяет более безопасно избежать неприятных проблем, связанных с химическими реакциями, проходящими, если остатки загрязнений после стрельбы не удалены вовремя.
